DETAILED ACTION

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: (1) an additional slot in the opposite side between the nut on the one hand and the second slots on the other hand. (2) a manual actuator provided within the tube and movable between a first position within the tube and a second position extending exteriorly of the tube and a linkage connecting the actuator to each of the dogs and movable in response to movement of the actuator to the actuator second position to allow movement of the dogs from the dogs second positions toward the dog first positions and responsive to movement of the actuator toward the actuator first position to allow the dogs to move toward the dog second positions.

Claim 14 is allowable over the prior art of record because the teachings of the references taken as a whole do not show or render obvious the combination set forth, including: (1) a manual actuator provided within the tube and movable between a first position within the tube and a second position extending exteriorly of the tube and a linkage connecting the actuator to each of the dogs and movable in response to movement of the actuator to the actuator second position to allow movement of the dogs from the dogs second positions toward the dog first positions and responsive to
